

METHODOLOGY DISCLOSURE STATEMENT

Project name	Ukraine research
Project reference	NGR 2203003

Research dates:	1st - 5 th February 2024
Target population:	The target population for the research was Australian residents (all states and territories) aged 18+.
Research methodology:	The research was part of a 20-minute self-complete online survey with n=1,588 participants sourced from an ISO accredited market research panel.
Weighting approach:	The data was weighted using ABS Census population statistics on age, gender, location and occupation to match the estimated population of all Australian residents aged 18+. The total effective sample size after weighting was approximately 62%, equating to a margin of error of approximately +/-3.1% (at the 95% confidence interval).
Research questions:	A combination of single choice, multiple choice and open-ended (text response) questions were used in the research. All questions and response options were displayed in full during interviews.

This research was conducted in accordance with the Australian Polling Council Quality Mark standards which can be viewed here: <https://www.australianpollingcouncil.com/>

A	It's important to support other free democracies which share our values					
B	Regular, meaningful support is needed allow Ukraine to finish the job					
C	We should stand by our partners in Europe, the US and UK to help Ukraine defend itself against Russian aggression					
D	The Ukrainian people are suffering and need our help to restore peace to their country					
E	Australia proudly committed to support Ukraine from the start and we can't let them down now					
F	It's in our national interest to support a rules-based system which prevents aggressive and powerful countries from doing whatever they want					
G	History has shown that things will only get worse if aggressive countries are allowed to expand their borders by force					
H	Providing significant support now will help end the war sooner and this will ease global inflation					
I	Australia's economy has unexpectedly benefited from the war due to high commodity prices, so it's fair enough we use some of that extra money to help Ukraine
