

METHODOLOGY DISCLOSURE STATEMENT

Project name	The Mood of the Nation (Wave 2)
Project reference	NGR 2203003
Research dates:	12 th - 18 th April 2022
Target population:	The target population for the research was Australian residents (all states and territories) aged 18+.
Research methodology:	The research comprised of a 17 minute self-complete online survey with n=1,401 participants including a boost in the Victorian sample, sourced from an ISO accredited market research panel.
Weighting approach:	The data was weighted using ABS Census population statistics on age, gender, location and occupation to match the estimated population of all Australian residents aged 18+. The total effective sample size after weighting was approximately 73%, equating to a margin of error of approximately +/- 3.1% (at the 95% confidence interval).
Research questions:	A combination of single choice, multiple choice and open-ended (text response) questions were used in the research. All questions and response options were displayed in full during interviews.

This research was conducted in accordance with the Australian Polling Council Quality Mark standards which can be viewed here: <https://www.australianpollingcouncil.com/>
